

Sausages game

Aim of the game: To make someone laugh.

You will need:

- a small group of children (preferably the giggly kind)
- the questions

How to play:

- Choose a contender and a question master.
- The contender faces the question master and stays very serious. They must answer “sausages” to every question they are asked, and they must not laugh.
- The remaining children stand behind the question master. They (and the question master) are allowed to laugh.
- The question master asks the questions until the contender laughs. How many questions could they get through?

The questions:

1. What is your name?
2. What is your favourite food?
3. What do you like to wear on your head?
4. What do your feet smell of?
5. When is your birthday?
6. What flavour birthday cake would you like?
7. What do your fingers look like?
8. What do you brush your teeth with?
9. What do you cuddle in bed at night?
10. What's the best thing to dip into custard?
